

# Field Services

## For Underground Fiberglass Tanks

**Fiber Glass Systems LP is the only major manufacturer of fiberglass storage products that has an entire division – with a full-time staff – devoted to field services. Our trained technicians cover the United States and Canada and are ready to service not only our products but our competitor’s products as well.**

### **Containment Solutions™ Tank technicians are trained in:**

- Tank fabrication and manufacturing techniques
- Confined space entry
- Scaffolding and fall protection
- HAZMAT/DOT general awareness
- OSHA construction and general industry standards
- Hazardous waste operations and emergency response
- Hazardous communication safety training
- Excavation safety
- API WorkSafe
- AED/CPR & First Aid certified

Trained personnel and field service technicians are ready to meet your needs from five strategic locations across the United States including Mt. Union, PA; Greenville, SC; Bakersfield, CA; Grand Bay, AL; and Tulsa, OK.

### **Field Services**

- Repairs & modifications
- BTU® – Biofuel Tank upgrade
- Compartment Tank upgrade
- Tank Sump upgrade
- ReTank®
- Tank recertification

If you need to reach the Field Service division of Containment Solutions Tanks directly, **please call us at our toll free number (800) 822-1997.**
